# THE RELENTLESS PURSUIT OF PERFECTION

Riding pleasure starts long before you get onto your motorcycle. Because when you know your safety is taken care of, you're free to enjoy the buzz of anticipation whenever you suit up for the next journey. That's why BMW Motorrad created the C.A.R.E. stamp of approval. C.A.R.E. stands for Concept of Advanced Rider Equipment, and represents the unwavering commitment to **safety, innovation, comfort** and **quality**.

These elements form the foundation of any BMW Motorrad rider's equipment. Whether we're talking about the new, hard-wearing materials developed by a dedicated R&D team, the sophisticated design elements that increase both protection and comfort, or the testing methods devised and employed in-house, the highest standards are applied from start to finish. All our products are the result of years of research and development and only receive the C.A.R.E. seal of approval when they meet BMW Motorrad's exacting standards. We want you to enjoy riding your motorcycle – and that doesn't just mean meeting standards. It means surpassing them, in everything we do.

Find out more at [bmw-motorrad.com/care](http://bmw-motorrad.com/care)

## SAFETY

Safety is paramount when you are riding a motorcycle. This applies to both the bike itself as well as its rider's protective clothing. Motorcyclists are directly exposed to any external conditions, both positive and negative. Consequently, we have made this principle one of the basic C.A.R.E. criteria we take into account when we develop our rider's equipment. From rider's boots to helmets – there is almost no detail we have not developed and tested with road safety in mind.

In this process, we focus mainly on individual items' compatibility. Regardless of whether you are wearing a BMW Motorrad jacket, trousers and helmet or you are combining various products – every equipment item must work together as a unit and provide comprehensive rider protection on tours.

The material in the impact areas of any jacket, pair of trousers and suit is reinforced, features double stitching and the most recent version of CE protectors. Consequently, the equipment copes with everyday motorcycling demands as well as the most severe impacts on tarmac or gravel without restricting rider's freedom of movement.

BMW Motorrad has one objective in mind, from material to processing and crucial testing: actively and passively protecting motorcyclists in any situation to let them experience a carefree riding experience. That's what we call BMW Motorrad safety.

## COMFORT

Just like safety, comfort is a crucial factor in the development of rider's equipment. Ultimately, it's about providing maximum passive protection while ensuring riders are not distracted by any of the garments they are wearing.

For this reason, BMW Motorrad helmets are especially noise-insulated, while the brand's clothing comes with innovative ventilation and membrane systems as standard. Feeling good at any temperature and in any weather conditions is the only way to guarantee riders' unrestricted ability to react quickly to events on the road.

BMW Motorrad helmets, jackets, suits, trousers, boots and gloves don't just look good – they're in a class of their own when it comes to practicality. We strive to set new standards in everything we do. Whether it's the collar, the sleeves or the cuffs – we're meticulous about every part of every garment, no matter how big or small.

## INNOVATION

Innovation has been at the heart of BMW Motorrad since it was established in 1923. We've also led the way in the development of rider equipment since the mid-seventies. We've invested years of research, development and testing to create solutions that meet a wide-ranging set of requirements for motorcycling clothing – with the aim of making the best even better. For example, we developed the groundbreaking BMW climate membrane, which combines high water resistance (with a minimum 10,000 mm water column) with incredible breathability. Combining unprecedented damping properties with maximum comfort, our continually upgraded NP protectors are prime examples of why BMW Motorrad rider equipment is at the forefront of innovation. Last but not least, we attach incredible importance to safety. Case in point: the ultra-lightweight System 7 Carbon helmet, whose 100% high-performance carbon-fibre shell offers reliable protection and can be converted into a jet helmet in seconds – all without the help of specialised tools.

C.A.R.E. is a promise to our customers that our products will always remain at the cutting edge of safety, quality and comfort.

## QUALITY

Take your time on tours and you will have a great time! For this reason, we cover countless test miles on the road to identify any potential weaknesses of our products. We know that any BMW Motorrad rider's equipment is often used for many years and for trips of many thousand kilometres.

There are no statutory requirements for quality and durability and for this reason, we have developed our own standards and specifications. And we consistently comply with this standard. As a manufacturer of rider's equipment BMW Motorrad operates its own laboratory to thoroughly test development methods, materials and finished products.

There is basically nothing that is not taken to the limit by shaking it, abrading or pulling on it. This is the only way you can rely on a quality no one else can deliver.

# C.A.R.E. STANDARDS: A COMPARISON

## SAFETY

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Impact absorption	There is no legal requirement for specially fitted right and left-side protectors.	BMW Motorrad offers right and left-side protectors that can be adapted to the rider's specific shape. They offer excellent impact absorption performance and have won countless consumer awards.
Tear resistance	Materials must offer a minimum resistance of 100 N/cm <sup>2</sup> . (DIN EN ISO 13937-2:2000; tear resistance*)	The materials employed by BMW Motorrad must be able to withstand a force of at least 1000 N/cm <sup>2</sup> .
Helmet aerodynamics/aer-oacoustics	Helmets are tested individually for aerodynamic and aeroacoustic performance, without the rider or motorcycle.	We analyze the aerodynamics and aeroacoustics for the helmet (with both rider and motorcycle) over many hours of wind tunnel testing.
Helmets' angle of sight	Standard regulations do not call for helmets to offer an expanded (and thus safer) field of vision.	By offering angles of sight that go beyond industry norms, our helmets provide a wider field of vision, particularly laterally. This significantly increases safety when riding in urban areas.

## INNOVATION

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Water resistance	According to DIN standards, fabric with a water head of 1,300 mm is considered waterproof. (DIN EN 20811:1992; water resistance*)	The BMW climate membrane combines high water resistance (with a minimum 10,000 mm water column) with incredible breathability.
Practicality	Legal requirements do not call for motorcycle clothing to be tested in use at all.	BMW Motorrad riders assess the practicality of every item we produce over numerous rides (including endurance testing) in a range of weather conditions.
Helmet water resistance	There is no legal requirement to integrate seals within the structure of helmets. If desired, manufacturers can simply apply seals using adhesive.	Our innovative seals are built into the structure of our helmets, and are not glued on. This ensures peerless protection and water resistance in even the toughest conditions.
Helmet angle of removal	By law, the maximum angle of removal permitted for helmets is 30 degrees. (ECE 22.05 roll-off test*)	The angle of removal for BMW Motorrad helmets is considerably smaller than is required by law thanks to our innovative neck straps.

\* As of October 2014

## COMFORT

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Fit and ergonomics	In general, only standardized sizes are available (DIN EN ISO 340*).	The sizes we offer are based entirely on the dimensions measured and supplied to us by our customers.
Height-adjustable protectors	There is no legislation that requires knee protectors to be height-adjustable.	Our protectors are height-adjustable as standard, ensuring the perfect fit for each rider.
Helmet ventilation	Standard helmets offer ventilation around the upper part of the head only.	BMW Motorrad helmets are designed to allow air to circulate around the entire head. The chin and visor areas are well ventilated to ensure mist-free vision even in the toughest conditions.

## QUALITY

As there are no legal requirements for quality, we work from the relevant DIN EN ISO standards.

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Resistance to fading	No industry standard.	Garment samples are spread out under xenon light to test their resistance to fading. (Taken from DIN EN ISO 105-B02:2002; resistance to fading*)
Rub fastness	No industry standard.	Each material is placed alongside a wet or dry testing fabric, and the two are rubbed together. The material's rub fastness is assessed based on the colouring of the test fabric. (Taken from DIN EN ISO 105-X12:2002; rub fastness*)
Colour fastness to perspiration.	No industry standard.	Textiles are placed alongside a testing fabric soaked in sweat, and the two are rubbed together (Taken from DIN EN ISO 105-E04:2013; fastness to perspiration*)
Oil repellency	No industry standard.	Materials are tested for their resistance to oil and petrol in the same way as the colour fastness analysis. (Taken from DIN EN ISO 105-X12:2002; rub fastness*)
Fastener abrasion resistance	No industry standard.	Textiles are subjected to the Martindale abrasion test, at a force of 9 kPa over 4000 cycles, to assess their resistance to wearing. (VDA 230-210:2008, taken from DIN EN 530:2013; fastener abrasion resistance**)
Washing fastness	No industry standard.	Textiles are sewn into a piece of test fabric, then placed in a beaker full of detergent solution and agitated. The test fabric is then dried, and the colouring assessed. (Taken from DIN EN ISO 105-C06:2010; textile washing fastness*)
Helmet UV and impact resistance	No industry standard.	Our paint systems are subjected to strict testing to ensure they maintain their appearance and performance over time.
Helmet chin section wear	No industry standard.	In fatigue testing, the opening and closing of the visor and chin section is repeated over and over again. This ensures the helmet functions correctly throughout the entire life cycle.

# HELMETS

BMW Motorrad helmets meet the highest standards in safety, functionality and comfort, whether riding down country roads or doing a few laps around the track. Each design therefore offers an unobstructed field of view, perfect ventilation and the very best aerodynamics. – including the System 7 Carbon flip-front helmet, with its quadruple-joint mechanism and 100% carbon shell.

GS Enduro goggles

GS Trophy Enduro goggles

These goggles are a perfect match for the GS Carbon helmet and offer excellent ventilation for off-road use. Naturally, they also comply with the EN 1938:1998 safety standard. The width-adjustable strap and comfortable padding make them a pleasure to wear. Also available with easy-change transparent, tinted or orange double glazed lens

### GS CARBON HELMET

The GS helmet has a sleek design worthy of the off-road scene that inspired it. A carbon shell and integrated BMW neck straps offer the maximum rider safety. The sun shield and aerodynamic spoiler, optimised in a wind tunnel, provide the comfort to match.

- Enduro-style helmet, perfect for touring (two helmet shell sizes available)
- 100% carbon-fibre reinforced plastic shell
- Outstanding impact absorption and safety performance
- Inner layer made of multi-segmented expanded polystyrene
- Double-glazed, three-dimensionally curved visor
- Anti-fog inner visor, outer visor has anti-scratch coating on both sides
- Spoiler and removable sun shield for optimum aerodynamics
- Highly effective ventilation system
- Integrated dust filter and removable chin vent flap for off-road and hot-weather riding
- Removable, washable head and cheek pads
- Integrated neck straps for optimum safety performance
- Compatible with BMW Motorrad communication system
- Can be adjusted in a matter of seconds
- Safety standard: ECE 22-05
- Weight: approx. 1,450 grams with shield and dual visor
- Options: tinted silver reflective, blue reflective or orange visor

**SYSTEM 7 CARBON HELMET**

The System 7 Carbon helmet provides maximum comfort and safety. The carbon helmet shell is especially light and has outstanding impact absorption properties. The quadruple-joint chin bar pivot ensures a low front profile even with the chin bar open. Removing the chin guard requires no tools and only two buttons – turning it into a fully fledged jet helmet. The sun visor is easily adjustable to adapt to sudden changes in light. Excellent ventilation helps you keep a cool head and a double-glazed visor ensures unobstructed vision. In terms of aerodynamics and aero-acoustics, the helmet ranks among the best on the market.

- Flip-front helmet with quadruple-joint mechanism
- Lightweight, 100 % carbon shell (two sizes) with excellent impact absorption and optimum rigidity
- Inner layer made of multi-segmented expanded polystyrene
- Double-glazed visor: anti-fog inner visor, outer visor has anti-scratch coating on both sides
- Effective ventilation for head and visor
- Outstanding aerodynamics and aeroacoustics
- Built-in drop-down sun visor, operated via slide control
- Large spoiler
- Central release button to open the chin guard
- Chin strap with a snap lock closure, integrated neck straps prevent the helmet from twisting in the event of an impact
- Removable, washable liner made of DuPont Coolmax and Alcantara
- Quick and easy conversion to a jet helmet
- Compatible with BMW Motorrad communication system
- Safety standard: ECE 22-05
- Low weight: approx. 1,580 grams (small helmet)
- Options: tinted silver reflective, blue reflective or orange visor

### STREET X HELMET

The BMW Motorrad Street X helmet has been designed to take on any road, be it motorway, city street or country lane. This is a helmet that effortlessly combines comfort and safety with a stylish modern design. The sun visor can be adjusted freely, giving you full control to quickly adapt the helmet to various light conditions. The Street X has been wind-tunnel tested to ensure optimum aerodynamics and aeroacoustics. Superb ventilation makes sure you keep a cool head and the double-layered visor ensures you keep everything in sight. And in spite of this wide range of functions, the Street X remains incredibly lightweight.

- Full-face helmet with integrated sun visor
- Inner layer made of multi-segmented expanded polystyrene
- Double-glazed visor: condensation-resistant inner visor; outer visor with scratch-resistant coating
- Excellent head and visor ventilation
- Optimum aerodynamics
- Integrated sun visor, adjustable via a slider bar on the top of the helmet
- Chin strap with double-D fastener
- Removable, washable interior
- Safety standard: ECE 22-05
- Weight: approx. 1,450 grams (small helmet)
- Tinted silver reflective or blue reflective visor optionally available

### RACE HELMET

For helmets to deliver maximum safety, they must combine a number of different functions. As would be expected, the integral Race helmet is exceptional when it comes to impact absorption. Its race-proven, full-face design lets you concentrate completely on the road ahead, and react at lightning speed.

- Integral helmet, suitable for the racetrack
- Glass-fibre/carbon-fibre outer shell in two sizes
- Inner layer made of multi-segmented expanded polystyrene
- Large spoiler for maximum stability even at speeds over 300 km/h
- Visor with wide field of vision (even in the prone position), two-dimensionally curved, with anti-scratch coating on both sides
- Anti-fog inner visor
- Effective visor and head ventilation
- Visor lock button at the side
- Enlarged neck contour ensures wearer comfort even when riding in the prone position
- Double-D fastener
- Neck straps prevent the helmet from twisting in the event of an impact
- Fully removable and washable liner
- All colours supplied with clear visor and one set of tear-offs
- Safety standard: ECE 22-05
- Weight: 1,350 grams (small helmet)
- Tinted visor available as an optional extra

### AIRFLOW HELMET

A helmet for the warmer periods of the motorcycle season. A modern design made from premium material and with unrivalled AirFlow functionality. Keep a cool head thanks to the optimally positioned ventilation openings and channels, which can be closed when not needed. This is aerodynamics and aeroacoustics of the highest level. Also prepared to accept the BMW Motorrad communications system and conforms to ECE-22-05.

- Premium jet helmet with excellent ventilation
- Outer shell made of glass-fibre reinforced plastic
- Inner layer made of multi-segmented expanded polystyrene
- Three-dimensionally curved visor, with anti-scratch coating on both sides (class 2 optical quality)
- Two large ventilation zones can be closed via slide control
- Outstanding aerodynamics and aeroacoustics
- Chin strap with snap lock and variable insertion depths
- Integrated neck straps
- Washable liner
- High-quality aluminium elements with BMW branding
- Compatible with BMW Motorrad communication system

- Safety standard: ECE 22-05
- Weight approx. 1,170/1,280/1,380 grams (depending on shell size)
- Tinted visor available as an optional extra

### BOWLER HELMET

The Bowler helmet is a BMW Motorrad helmet which has been specifically developed for the design-conscious motorcyclist. It combines comfort and safety with a modern retro design, which is especially accentuated by the exclusive leather applications and the high-quality inner lining with embossed BMW logo. A lean and elegant look is provided by the four helmet shell sizes with inner made of expanded polystyrene (EPS) – the perfectly adapted fit for every size guarantees outstanding comfort. The matching high-quality range of accessories, for example visors, peaks and leather masks, complete the outfit.

- Jet helmet in modern retro design
- Outer shell: fibre composite made of glass and carbon-fibre-reinforced plastic (GFRP/CFRP)
- Inner shell made of expanded polystyrene (EPS)
- Very good aeroacoustics
- Inner lining made of antibacterial and hypo-allergenic material
- Chin strap with double-D fastener
- Helmet edge and eyewear strap holder made of high-quality calfskin
- Low weight: approx. 785 g (small helmet shell)
- Extensive range of accessories
- ECE 22-05 homologation

### ROAD 66 MOTORCYCLING GOGGLES

With a chrome frame, soft genuine leather cushioning and optional clear or tinted lenses, the Road 66 motorcycling goggles are the ideal match for the Legend helmet. The recess for the nose bridge also makes them suitable for glasses wearers.

- Cool, high-quality motorcycling goggles
- 100 % compatible with the Legend helmet
- Chrome-plated Gunmetal frame
- High-quality soft leather padding
- Extra-strong, adjustable elastic strap
- Suitable for glasses wearers (incl. recess for nose bridge)
- BMW Motorrad logotype on imitation-leather appliqué
- Includes fabric pouch featuring the BMW Motorrad print
- Optional interchangeable clear or tinted lenses available

#### SIZE

Single size

### BMW MOTORRAD HELMET BAG

The BMW Motorrad helmet bag is the perfect way to transport and store your motorcycling helmet. The rigid base protects the helmet even when parked up, while vents guarantee the best possible air circulation.

- Premium helmet bag with a classic design
- Ideal for transporting and storing motorcycling helmets
- Rigid base with integrated vents
- Padded main compartment accessible via a long, double-zip closure
- Soft fleece inner lining helps prevent scratches on the helmet and visor
- Practical outer pocket for small bits and pieces, e.g. keys; closable with a stud fastener
- Robust carry handles and detachable shoulder strap with high-quality metal clasps
- BMW Motorrad logotype on front
- Functional upper material made from polyester with a fabric-look finish, water-resistant and easy-care
- Dimensions (HxWxD): approx. 26 x 36 x 21 cm
- Capacity: approx. 20 litres

Black

# COMMUNICATION SYSTEMS

Talking to fellow riders, making phone calls, listening to music – it’s all possible with the BMW Motorrad Navigator connection and TFT display: the BMW Motorrad V3 and Fit-for-All communication systems with Bluetooth technology gives the rider an exceptional listening experience thanks to easy operation and its low weight. The systems enable wireless voice communication between two helmets for rider and passenger. All BMW Motorrad communication systems are compatible with each other and can be linked to all relevant interfaces of your BMW Motorrad. The Bike-to-Bike communication module is your ideal companion to establish a connection to a selected group of up to six vehicles while you are on the road.

**V3 COMMUNICATION SYSTEM**

The third generation of integrated BMW Motorrad helmet communication systems provide optimum fit in your System 7 Carbon, GS Carbon, System 6, System 6 EVO or AirFlow helmet.

- Completely integrated communication system in the helmet (operating buttons on outside of helmet)
- Rider and passenger communication system
- Can be enhanced to communicate with up to 6 motorcycles using Bike-to-Bike communication module
- Design specifically adapted to the helmet
- Stream music using BMW-compatible audio sources also to passenger
- Telephony, providing a Bluetooth-compatible mobile phone has been connected
- Automatic interference suppression
- High-grade loudspeakers for audio playback in stereo quality
- Improved voice quality thanks to HD audio system
- Voice control of the connected mobile phone can be started at the touch of a button.
- Battery life: depending on use up to 16 hours (2500 mAh)

**FIT-FOR-ALL COMMUNICATION SYSTEM**

The Fit-for-All communication system merges functionality and slim design. This communication system is compatible with most current helmets available on the market.

- Universal helmet communication system
- Rider and passenger communication system
- Can be enhanced to communicate with up to 6 motorcycles using Bike-to-Bike communication module
- Easy integration into the helmet
- Stream music using BMW-compatible audio sources also to passenger
- Telephony, providing a Bluetooth-compatible mobile phone has been connected
- Automatic interference suppression
- Battery life: depending on use up to 8 hours (560 mAh)
- Not available in conjunction with Bowler helmet.

\* Scheduled availability from first quarter of 2019

**BIKE-TO-BIKE COMMUNICATION MODULE**

In combination with a BMW communication system it is possible to communicate with a group of up to 6 vehicles that have also been equipped with Bike-to-Bike communication module when you are on the road.

- Universal helmet extension for communication systems for group communication
- Compatible with BMW Motorrad WCS2, V3 and Fit-for-All communication systems.
- One Bike-to-Bike communication module is required per motorcycle.
- One rider and one passenger helmet can be connected per communication module.
- Range between two Bike-to-Bike communication modules up to 1.5 km in ideal conditions
- Range between two Bike-to-Bike communication modules up to 5 km as part of large group featuring six communication modules
- If the group moves out of range and the connection cuts out, the connection is automatically re-established upon detection.
- Create communication groups and configure additional settings using a free app.
- Battery life: depending on use up to 12 hours (1400 mAh)

\* Scheduled availability from first quarter of 2019

# SUITS

Motorcyclists place a lot of value on being protected from the elements at all times, come what may. From well-ventilated summer outfits and waterproof touring suits to leather one-pieces, BMW Motorrad offers perfectly designed solutions for every scenario. And with the Rallye suit, there's even a model for the most demanding of globetrotters.

VENTING SUIT

MEN AND WOMEN'S CUT

A suit made for urban adventures in countries with high humidity and sizzling summer temperatures of over 25°C. The abrasion-resistant denim featuring large Cordura mesh inserts and lightweight NPL protectors offers maximum safety for short journeys.

- Lightweight textile suit designed for temperatures of 25°C and above
- Generous abrasion-resistant Cordura mesh lining for optimum ventilation
- Upper material inserts made of robust yet stylish denim
- Lightweight stretch Dynatec on backs of knees for maximum comfort and freedom of movement
- Material reinforced in vulnerable areas
- Lightweight NPL protectors at shoulders, elbows and knees (height-adjustable), plus NP2 protectors at hips (removable)
- NPL back protector can be retrofitted
- Back-protector pocket with 3D spacer fabric for optimum air circulation
- Zip at wrist with stud fastener on sleeve cuff
- Long side-leg zips extend to hips, making the trousers easy to put on and remove; press stud on leg cuff
- Two chest pockets with press studs, two zipped jacket side pockets, two front and back trouser pockets
- Leather label featuring the lettering 'BMW Motorrad, engineered in Germany' on the jacket hem and rear trouser waistband
- Connector zip: 40 cm
- Regular fit
- CE-certified

AIRFLOW SUIT

MEN AND WOMEN'S CUT

Even on the hottest summer days, the AirFlow summer suit will keep you cool and fresh. Stretch and mesh inserts made of abrasion-resistant Dynatec material provide excellent ventilation and freedom of movement. In black, this suit has an additional Coldblack finish, to prevent it from heating up.

- The perfect summer suit for warm weather
- Abrasion-resistant Dynatec outer
- Removable NP2 protectors at shoulders, elbows, back, hips and knees (height-adjustable at elbows and knees).
- Generous stretch Dynatec on the upper back for maximum freedom of movement
- AirTex mesh inserts on the chest, arms and thighs for optimum ventilation
- Mesh lining is extremely air permeable and elasticated
- Includes windproof Cover jacket to wear over top in cooler weather; can be stowed in back pocket
- Reflective material on the jacket and trousers
- Black version incl. Coldblack technology
- Dirt and water-resistant finish
- Soft material on the collar, sleeve seams and trouser waistband
- Velcro fasteners to adjust width of trouser waistband, sleeve cuffs and trouser cuffs, and waist of the women's jacket
- Two built-in carry straps mean jacket can also be worn as rucksack
- Two side jacket pockets, one back pocket, three inner pockets, two trouser pockets (most pockets with zips)
- Extra: waterproof pouch in jacket pocket e.g. for your smartphone or wallet

- Connector zip: 40 cm (all-around)
- Regular fit
- CE-certified

## TOURSHELL SUIT

## MEN AND WOMEN'S CUT

This popular touring suit incorporates the BMW climate membrane in a z-liner construction, giving a light, comfortable feel whilst still offering maximum protection from incidents and the elements. The fabric has been developed by BMW Motorrad to make it even more comfortable to wear and improve temperature control. The TourShell suit's upper made of a z-liner construction also merges high abrasion resistance with the comfort of a soft, more flexible material.

- Waterproof touring suit for year-round use
- Abrasion-resistant Dynatec Comfort in Z-liner construction
- BMW climate membrane (windproof, waterproof and breathable)
- NP2 protectors on back, elbows, hips and knees (adjustable to three different heights) and NPL protectors at shoulders
- Waterproof vent zips on upper body
- 3D air mesh lining in the back
- Sleeve cuffs, collar and trouser waistband adjustable with Velcro fasteners
- Quilted stretch inserts at the shoulders, jacket waistband and above the knees for a perfect fit
- Two waterproof outer jacket and trouser pockets, two inner jacket pockets (incl. one smartphone pocket with a viewing panel and cable duct), one non-waterproof pocket on the left sleeve
- Works well with the Ride quilted jacket (p. 87)
- Reflective material on jacket and trousers for good visibility
- Connector zip: 40 cm
- Regular fit
- CE-certified

### STREETGUARD SUIT

#### MEN AND WOMEN'S CUT

Breathable, windproof and waterproof, this jacket is a genuine all-rounder that comes with a thermal inner jacket and removable thermal trouser inserts. A highly abrasion-resistant three-layer laminate with ProtectionGuard and removable NP2 protectors offer all the protection you need.

- Professional-grade touring suit for year-round use
- Highly abrasion-resistant, elasticated three-layer laminate (95% Cordura and 5% elastane)
- BMW climate membrane, developed in accordance with C.A.R.E. standard; windproof, waterproof and highly breathable
- Material reinforced with innovative ProtectionGuard in vulnerable areas
- NP2 protectors at shoulders, elbows, back, hips and knees (height-adjustable), coccyx protector retrofittable
- Wind- and waterproof removable storm collar with integrated storm hood
- Removable windproof thermal inner jacket
- Soft-shell-style inner jacket that can also be worn by itself
- Removable thermal insert
- Zippable trouser fly in men's trousers with stretch side panels and adjustable trouser braces
- Zippable raised waistband in women's trousers with fleece lining and elastic cuffs with anti-slip silicone print for grip
- Ventilation zips on the front and rear of the jacket, and on the upper thighs
- Jacket pockets: two high-quality, water-resistant outer pockets, one easy-access zipped pocket with a waterproof, labyrinth-design zip closure, three waterproof inner pockets, incl. one multimedia pocket
- Trousers pockets: two high-quality, water-resistant outer pockets
- Steplessly adjustable trouser waist
- Reflective print on the front and back of the jacket and on the trouser side panels
- Connector zip: 40 cm (all-around and extended)
- Comfort fit
- CE-certified

**ENDUROGUARD SUIT**

**MEN AND WOMEN'S CUT**

Be prepared, whatever the weather. This professional enduro suit is the pinnacle of performance and practicality. The specially developed outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print) offers the highest levels of abrasion resistance. The three-layer laminate with BMW Climate Membrane offers perfect temperature regulation in this breathable, windproof and waterproof suit. A variety of ventilation zips and other clever details help create a bona fide 'comfort zone' for the rider.

- Latest-generation off-road suit, waterproof
- Highly abrasion-resistant outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print), developed by BMW in partnership with Schoeller Textil AG.
- Three-layer laminate with BMW climate membrane: windproof, waterproof and highly breathable
- NP2 protectors at back, shoulders, elbows, hips and knees (steplessly height-adjustable)
- Coccyx protector retrofittable
- Unparalleled all-round ventilation thanks to a variety of vents; double front zip serves as an air vent
- Mesh lining in jacket and trousers, plus 3D mesh lining in back; breathable and elastic
- Eight jacket pockets, seven of which are waterproof, men's jacket with an additional chest pocket, three trouser pockets, incl. one key case
- Wide sleeves and trouser cuffs feature a windbreaker for optimum protection in inclement weather
- Integrated windbreaker in jacket offers effective protection against the wind and rain
- Waterproof storm hood integrated into the collar
- Leather on insides of knees for a firm grip on the tank when you're riding off-road
- Velcro fasteners and press studs offer adjustable widths
- Reflective print on jacket

- Connector zip: 40 cm (all-around)
- Comfort fit
- CE-certified

**RALLYE SUIT**

**MEN'S CUT**

The Rallye suit is full of handy features that make it the perfect globetrotter. The watertight insert can be worn both under and over the jacket for optimum protection from rain, wind and dirt. This well-ventilated suit is also made of abrasion-resistant ProTechWool material and has several pockets for storing your personal items.

- Off-road suit with detachable waterproof insert
- Suitable for warm to moderate temperatures
- ProTechWool, a quick-drying, temperature-regulating performance fabric made from wool and polyamide with a carbon finish
- Wind and waterproof inner/outer jacket: when worn as an over jacket also protects from dirt
- Trousers with wind and waterproof BMW Climate Membrane insert with Comfort Mapping: membrane qualities matched to different areas of the body
- Material reinforced in areas most susceptible to falls
- Elastic, breathable mesh lining in the jacket
- Trousers with elastic inserts
- Long leather trim on the interior at the knee for secure grip during off-road riding
- Hem edge reinforced
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Long NP Pro back protector
- Optional chest guard, attached via four press studs

**ATLANTIS SUIT**

**MEN AND WOMEN'S CUT**

This premium touring suit made from high-quality leather offers comfort and protection for year-round motorcycling. The breathable nubuk cowhide leather boasts incredible abrasion resistance and waterproofing, offering maximum comfort and temperature regulation even over long distances.

- All-weather touring suit made of high-quality nubuk cowhide leather
- Highly abrasion-resistant, full-grain cowhide leather (1.2–1.4 mm), highly water-resistant and water-repellent
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Removable NP Pro back protector
- Coccyx protector retrofittable
- Naturally breathable leather regulates body temperature and moisture extremely effectively
- Taped, watertight seams and rubber-lined, waterproof zip fasteners prevent unwanted water penetration
- Waterproof membrane flap under the jacket's front zip, combined with a second, inner zip
- Waterproofing offered by membrane fabric behind the trouser fly helps to prevent water penetration
- Loops on trousers for attaching optional braces
- Stretch zones at the shoulders, back and above the knee, as well as at the rear trouser waistband
- Adjustable at waist, arm and trouser cuffs
- Two zipped outer pockets on both the jacket and trousers, two zipped inner pockets in the jacket
- Sleeve cuffs feature two zips, which allow you to wear gloves either inside or outside the suit (the second zip can be left open when wearing gloves inside the suit)
- Grey reflective print on shoulders
- Connector zip: 40 cm (all-around)
- CE-certified

SPORT SUIT\*

MEN'S CUT

Take control of the streets in this professional-grade suit made of 100 % cowhide nappa leather. NP2 protectors and INOX stainless steel sliders safeguard the rider in the event of a fall, while 3D mesh in the back and the AirVent system in the front ensure it never gets too hot or cold inside the suit. Every element is designed to maximize performance, including the cut, which encourages riders to assume an aerodynamic racing position. The result is total domination every time you take to the tarmac.

- Sporty leather two-part suit
- 100 % cowhide nappa leather (approx. 1.3 mm)
- NP2 protectors stitched in at shoulders, elbows and knees; removable hip and back protectors
- Retrofittable Coccyx NP2 protector
- Integrated, shock-absorbing material at collarbone and on chest
- Plastic-covered INOX stainless steel slider at shoulders
- Detachable knee sliders made of hardened plastic
- Front zip can also be used as air vent
- 3D mesh lining in back for improved circulation
- Leather stretch inserts for maximum comfort at the shoulders, sleeves, kidneys and knees
- Kevlar stretch inserts for the best possible fit and freedom of movement for the arms and legs
- Highly elastic LYCRA lining on areas subject to a lot of movement
- Soft neoprene-edged collar
- Cuffs on arms and legs made of Kevlar stretch material
- Trouser waistband made of stretch fabric
- Two outer pockets, one Napoleon pocket, one inner jacket pocket
- Preshaped sleeves and knees for excellent seated posture on the motorcycle
- All seams are safety seams stitched with safety thread
- Connector zip (all-around)
- Regular fit
- CE-certified

PRORACE SUIT  
MADE TO MEASURE

MEN'S CUT

The ProRace suit is also available made to measure. Use the configurator to design the suit to match your personal demands and preferences. Tight fit and many individualisation options in terms of colour and equipment – that's how you set yourself apart from the masses. Each suit is unique – and as individual as riders.

- Made to measure for perfect fit
- Highly abrasion-resistant cowhide nappa leather or optionally available in kangaroo leather at surcharge
- Different colour options
- Different options for knee sliders (with/without) and sliders on elbows and shoulders
- Options for additional equipment details (partly subject to surcharge): with/without TrinkPak in hump, variants for perforation, with/without chest protector, standard foam or Vibram VPOD thermal foam
- Can be individualised with name/nickname and personal logo

- Selection between different logo options (colour of BMW Motorrad inscription, with/without Race inscription, on the hump either BMW logo, M logo or model inscriptions, e.g. RR)
- Configured at BMW Motorrad authorised workshop or directly online in configurator
- Find out more at [bmw-motorrad.com/ProRace](https://bmw-motorrad.com/ProRace)

STREETGUARD AIR JACKET

MEN AND WOMEN'S CUT

The professional-grade StreetGuard AIR touring jacket provides effective protection, whatever the road has in store for you. Integrated preparation for the Street AIR vest enhances passive safety, as do additional NP2 protectors, abrasion-resistant ProtectionGuard material, striking reflective print and countless other smart features. In addition, the BMW climate membrane and a range of ventilation zips prevent the build-up of heat, and ensure all riders find their perfect temperature. Best of all though, it means you can enjoy the ride, whatever the weather.

- API-ready (Active Protection Inflatable) StreetGuard jacket
- Street AIR body warmer with optional airbag for significantly increased passive protection
- Highly abrasion-resistant, elasticated three-layer laminate
- Double-thickness ProtectionGuard material in vulnerable areas
- Removable NP2 protectors at the shoulders and elbows
- Waterproof, windproof and incredibly breathable thanks to the BMW climate membrane
- Removable storm collar with integrated storm hood
- Ventilation zips on the front and rear

- Two outer pockets, four waterproof inner pockets, incl. one carefully designed multimedia pocket
- Reflective print on front and back
- Connector zip: 40 cm (all-around)
- Comfort fit
- CE-certified

CLUB SPECIAL LEATHER JACKET\*

MEN AND WOMEN'S CUT

The Club Special jacket is a real gem for BMW Motorrad fans. Each item is an unique piece with a number embroidered on the collar; the collection is limited to 1,500 items. The soft and light cowhide and the red or blue lining exude quality and exclusivity; a coloured leather strip emphasises the silhouette.

- Stylish sporty leather jacket, suitable for motorcycling and as a leisure jacket
- Wear-resistant soft cowhide leather (approximately 1–1.2 mm thick), soft feel
- Light-coloured leather in slightly prewashed and tumbled look
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- High collar with attractive and functional workmanship, can be closed with magnetic stud
- Silhouetting blue and red leather highlighters on the shoulders and sleeves
- Full-length metal front zip fastener, with backing to prevent catching
- Four or three zippered outside pockets (men and women) as well as two inside pockets and a smartphone pocket
- Zip fastener and slide in high-quality aged brass
- Zip at the wrist
- Short jacket: cut just below the waist
- High-quality "Option 719" embroidery on the sleeve
- Lining colour-matched with "Option 719" overprint; red for women, blue for men
- Each jacket is unique – embroidered numbering on a leather loop on the back of the collar
- BMW badge on upper arm, BMW Motorrad embossed on the back
- Connector zip: 40 cm

\*Limited edition, available from mid-May 2019

RIDER TROUSERS

MEN AND WOMEN'S CUT

These waterproof, textile motorcycling trousers are ideal for spring, summer and autumn. The functional trousers are abrasion-resistant, wind and waterproof thanks to a breathable insert. They are equipped with protectors at the hips and knees. Adjustment options with a zip fastener at the leg seam ensure the desired wearing comfort.

- Textile motorcycling trousers with waterproof insert
- Abrasion-resistant cotton/polyamide outer
- Double-thickness material at the seat
- Windproof and waterproof and breathable insert thanks to BMW Climate Membrane
- Removable, height-adjustable NPL protectors at the knees, NP2 protectors at the hips
- Front ventilating zip fasteners on thighs
- Adjustable leg cuffs with zips
- Two back pockets, side zip-fastened pockets; for men's also two waterproof cargo pockets
- Reflective print at bottom with BMW Motorrad lettering
- Including elastic textile belt with BMW Motorrad branding on the buckle
- Connector zip: 40 cm
- Regular fit, both as women's and men's cuts
- CE-certified

CLIMAPROTECT TROUSERS

UNISEX

ClimaProtect trousers are a practical companion when commuting. They are made of a polyamide and elastane material mix which together with BMW Climate Membrane offers abrasion resistance. They are elastic, waterproof and breathable. Thanks to long zip fasteners at the sides, they can be easily pulled over normal trousers. Benefit from protectors at the knees and retrofittable hip protectors.

- Textile motorcycling trousers made of three-layer laminate
- Abrasion-resistant material made of polyamide and elastane/stretch
- Wind- and waterproof, and breathable thanks to BMW Climate Membrane.
- Close fit
- Preformed leg for good seating comfort
- Long, side zip fastener for putting them on in shoes
- Removable NPL protectors on the knees (height-adjustment is very easy), optional NP2 protectors can be inserted at the hips
- Waistband with elastic
- No pockets
- Reflective print at bottom with BMW Motorrad lettering
- Connector zip: 40 cm
- CE-certified

**FIVEPOCKET JEANS**

**MEN AND WOMEN'S CUT**  
Combining the classic look of jeans with the performance of motorcycling trousers, the FivePocket jeans look as stylish off the bike as on it. The straight-cut denim comes with additional length for easy cuffing, while protectors at the knees combine excellent shock absorption with a high level of comfort.

- Casual motorcycling trousers with five-pocket jeans styling
- Abrasion-resistant mix of materials
- Removable, height-adjustable NPL protectors at the knees, NP2 protectors at the hips
- Slim-fitting
- Straight legs with turn-ups
- Front button fastening with zip fly (Denim) or button fly (Grey)
- Leather label on rear waistband featuring BMW Motorrad logotype and embossed with 'engineered in Germany'
- Connector zip: 40 cm
- Regular fit
- CE-certified

**RIDE JEANS**

**MEN AND WOMEN'S CUT**  
These Ride jeans are fully fledged casual motorcycling trousers with five-pocket styling. They offer enhanced abrasion resistance thanks to the carefully selected material blend and integrated Kevlar inserts in vulnerable spots. Riders can quickly and easily remove the knee protectors from the outside, turning the trousers into casual jeans for everyday wear.

- Stylish five-pocket motorcycling jeans
- For use on and off the bike
- Abrasion-resistant blend of cotton, polyester and CORDURA
- Kevlar inserts for enhanced abrasion resistance in the seat and at the hips, and on the sides of the upper thighs and knees; invisible from the outside
- Steplessly height-adjustable NPL knee protectors, removable from the outside for a quick change from motorcycle to leisure trousers
- Removable NP2 hip protectors
- Separate men and women's versions (men: straight-cut, women: slim-fit)
- Leather label on waistband featuring BMW Motorrad lettering and embossed with 'engineered in Germany'
- 'Make Life a Ride' print on the inner waistband

PRORACE BOOTS

- UNISEX**  
Waterproof, breathable ProRace boots for men not only impress with their Race look, but also with many practical details. Among other features, they offer side and heel guards, a gearshift lever protector, and soft suede leather on the inside of the bootleg for the best possible contact with the motorcycle. The insole is removable and washable.
- Sporty stylish boots with side and heel plastic sliders
  - Replaceable side sliders, inserted and fixed with a screw
  - Lightweight, touring-suitable entry-level boots
  - Upper: synthetic leather, with napped leather inner (cowhide)
  - Waterproof, windproof and incredibly breathable thanks to the BMW Climate Membrane
  - Anatomically moulded shin guard
  - Interior reinforcement at toes
  - Shock absorbers at heel
  - Shift-lever guard made of soft PU
  - Boot leg liner of soft napped leather ensures better contact to the motorcycle
  - Easier pulling on and off as well as individual adjustment at the foot by means of zip fastener with elastic band on the inside of upper

- Generous adjustment to a neat fit on the calf thanks to wide Velcro surface
- Stretch zones at the instep and the heel
- Anti-slip rubber treaded sole
- Washable insole, removable
- Functional liner, perforated in the boot leg
- Loop to help carrying
- Large RACE inscription on the shin guard

AIRFLOW GLOVES

UNISEX

These gloves are designed to complement the AirFlow suit, but are also perfect for any summer excursion. They combine thin, abrasion-resistant materials such as goatskin leather and AirTex that deliver both grip and protection. Knuckle protectors and impact-absorbing foam protect the back of the hand, while holes in the insides of the fingers ensure optimum ventilation. Your next summer tour won't be complete without the AirFlow gloves!

- Lightweight, well-ventilated summer gloves
- Highly breathable goatskin leather and large air-permeable Schoeller AirTex applications on the back of the hand
- Perforations on back of hand and between fingers for improved ventilation
- Double-thickness palm, balls of the hands lined with Schoeller Keprotec padding
- Leather-covered plastic protective shell over knuckles, with ventilation holes and a shock-absorbing foam lining
- Lightweight foam on finger backs
- Short wrist cuff with Velcro strap
- Soft cuff material prevents chafing of the wrist
- Preshaped design prevents pressure points at the fingers
- Palm unlined for a firmer grip
- Suede leather thumbs for wiping visor

### RALLYE GLOVES

#### UNISEX

When the road heats up, these lightweight, summery Enduro gloves help you to keep your cool. You'll always have the upper hand with this mix of materials: robust kangaroo leather, goatskin leather and elasticated Lycra. And the shock-resistant hard shell offers the ultimate protection for off-road touring.

- Every detail of these summer enduro gloves has been designed for off-road riding.
- Two colours to match the Rallye suits
- Palm made of abrasion-resistant kangaroo leather, double-thickness in key areas; sandwich construction made of Temperfoam and a double leather layer along the scaphoid bone
- Top of glove made from an elasticated and airy goat leather and Lycra mix
- BMW Motorrad hard shell with Temperfoam underlay
- Short cuffs made of goat leather, with Velcro fastening
- Ultimate ventilation provided by slits in the hard shell and netting at the base of the fingers
- Palm: special seams prevent pressure points at the fingers
- Lower hand not lined
- Leather pads with foam cushioning protect the fingers when driving through foliage and also prevent wear and tear

PROWINTER GLOVES

**UNISEX**  
We warmly recommend these windproof and waterproof GORE-TEX® winter gloves, which hold their own even in the coldest, wettest weather thanks to their Thinsulate padding and soft fleece lining. The long neoprene cuff and specially developed finger construction also help to prevent chilly hands.

- Highly insulating waterproof winter gloves
- Palm: hydrophobic goatskin, double thickness on ball of hand and grip area of thumb
- High-tech elastic Nyspan for maximum comfort
- Windproof, waterproof and breathable with GORE-TEX® membrane
- Insulating Thinsulate padding with added aluminium laminate on the back of the hand
- Lining made of brushed synthetic fibre (palm) and teddy fleece (back)
- High-tech, impact-resistant and energy-absorbing knuckle shells
- Touchscreen-compatible fingertips
- Rubber wiper lip on left index finger, suede wiping surface on left thumb
- Reflective strips on edge and on little finger
- CE-certified according to DIN EN 13594

NEW

HIGH VIZ VEST

**UNISEX**  
The sleeveless HighViz vest is designed for particularly safety-conscious riders. Its neon yellow colour and reflective applications on the chest and back considerably improve the rider's visibility. And because the vest is close-fitting, it does not flutter in the wind. The vest can be worn with any BMW Motorrad jacket.

- Fluorescent yellow high-visibility jacket made of air-permeable polyester
- Standards-compliant and stylistically highlighted silver reflective application on the chest and back
- Excellent visibility in all weather conditions
- Close, flutter-free fit
- Matches all BMW Motorrad jackets
- Certified to EN 1150

Neon Yellow

**SIZES**  
Unisex XS–4XL

Colour: Dark Grey

COOL DOWN VEST

**UNISEX**  
This revolutionary functional vest uses evaporation to cool riders. When the vest is wet or damp, the HyperKewl system locks in the moisture and stores it for up to eight hours, providing a 6 to 12°C temperature reduction for the wearer .

- A cooling vest with HyperKewl functional fabric at the front and back
- Constant cooling effect through evaporation
- Outer material: nylon and polyester functional fibre
- Stretchy side sections made of mesh
- Front zip

**COLOUR**  
Dark Grey

**SIZES**  
XS–4XL

HEATUP VEST

**UNISEX**  
This lightweight heated vest can be worn under all BMW Motorrad jackets. The heating elements are positioned according to the specific needs of the rider, while the vest's settings can be adjusted via the optional controller\*.

- Heated polyester vest with slim-cut fit
- Breathable, moisture-wicking and windproof
- Five heating elements located in the chest, back and kidney areas
- Maximum heat output 35W at 12V
- Optional three-step controller available for heat-output regulation
- Plugs into on-board socket
- Lightweight fleece lining for optimum insulation
- High, insulating collar
- One inside pocket

RIDE QUILTED JACKET

MEN AND WOMEN'S CUT

The breathable Ride quilting jacket is especially thin, meaning it can be worn under all BMW Motorrad jackets. Thanks to the stylish, slim-fit design, it can also be worn by itself.

- Practical quilted jacket, thin and lightweight, comfortably warm, breathable
- Can be worn alone or with any Motorrad motorcycling jacket
- Polyamide upper
- Thin quilting with PrimaLoft (80 g), double-thickness at elbows and shoulders
- Soft shell stretch inserts at the side for a good fit
- Loop at collar to attach to motorcycling jacket
- Zip at the lower back allows you to use the 40-cm connecting zip on motorcycling jackets and trousers
- Water stop on the bottom hem and collar to avoid a suction effect in wet weather
- Close-fitting collar for maximum comfort
- Two zipped outer pockets, PackAway inner pocket (small pack size)
- Biker look with quilting at elbows and shoulders
- Figure-hugging cut, women's jacket features additional tapering at the waist
- Regular fit

PCM JACKET

UNISEX

Whatever the mercurial spring and autumn weather brings, this jacket's innovative phase change material will keep you warm, dry and comfortable. The multifunctional jacket can not only be worn underneath any motorcycling jacket – its removable sleeves mean it can also be worn by itself as a vest.

- Highly functional mid-layer that can be worn both on and off the bike
- Blend of soft shell, stretch and Schoeller PCM fabrics
- Schoeller PCM: active temperature regulation and dynamic climate control
- Graphical material description on the left pocket pouch (inner)
- Removable sleeves offer the perfect fit, by itself or as a vest under a motorcycling jacket
- Two zipped outer pockets on sides
- Opening at the lower back allows you to use the 40-cm connecting zip on motorcycling jackets and trousers
- Loop at collar to attach to motorcycling jacket
- Perfect for temperatures between 10 °C and 20 °C
- Regular fit

### RAINLOCK WET-WEATHER SUIT

#### UNISEX

There's no such thing as braving the rain with this two-piece wet-weather suit – it comes into its own when the heavens open. The windproof and waterproof material is heat-resistant at the inner leg and anti-slip at the seat, which makes it the ideal protective gear for any eventuality.

- Two-piece rain suit, windproof and waterproof
- 100 % nylon with waterproof PU coating
- Non-slip material on seat; heat-resistant material on inner leg
- Adjustable hood in collar (removable)
- Front jacket zip with waterproof labyrinth design
- Rubber-lined jacket seams to prevent the jacket from riding up
- Jacket seam fitted with a pull-cord for width adjustment
- Large arm openings make it easy to put on and remove gloves
- Trousers with elastic waistband
- Long leg zips make the trousers easy to put on, lined with pleated material to help prevent water leakage
- Velcro at the arm and leg cuffs
- Two outer jacket pockets with eyelets for water drainage, one waterproof inside pocket
- Reflective print on legs, arms, back and chest
- Lightweight, packs down to a small size

HYDROSOCK FUNCTIONAL SOCKS

UNISEX

Better safe than sorry. Waterproof functional socks are best paired with the GS Pro boot or non-waterproof motorcycling boots for riding in the rain or off-road. Made with a three-layer laminate, the highly elastic four-way stretch material makes these knee-high socks perfect for dry feet whatever the weather.

- Waterproof performance socks
- Ideal for wearing with non-waterproof (enduro) boots in wet conditions
- Worked as a 3-layer laminate
- Outer material: a highly elastic mix of polyester and Lycra
- Laminated with waterproof BMW climate membrane
- Liner made of knitted performance polyester, odour-neutralising and moisture-regulating

- Seamless bonding technology for easy fit and maximum comfort
- Double-bonded edges sealed inside and out
- Reinforced fabric used for parts of the soles
- Four-way stretch
- Comfortable anatomical fit

- Functional, two-colour tube scarf
- Highly versatile: can be worn as a scarf, face-warmer, cap, etc.
- Elastic material, 100 % polyester
- Seamless design for added comfort
- Two different designs: Logo and 'Make Life A Ride'

Design: Logo

**NEW** design: Stripe

## BACK PROTECTOR

### UNISEX

The back protector reduces the risk of injury to the spinal column, shoulders and kidney area. After buckling it on, the rider wears the protector underneath their motorcycle jacket. It is particularly lightweight and breathable. Body heat then ensures a perfect fit, just like tailor made.

- Strap-on protector with integrated, steplessly adjustable kidney belt
- Optimum protection reduces the risk of injury
- Innovative Cross protector by KOMPERDELL on back: flexible multi-layer and multi-chamber design, supple fit thanks to Dual-Density foam, breathable and lightweight.
- Upper: blended fabric made of polyester and elastane
- Ergonomically shaped shoulder straps, padded and height-adjustable; with integrated press studs for retrofitting the BMW Motorrad chest protector

- High breathability due to generous perforation
- Good impact absorption properties
- Amply sized shielding for the spinal column, the shoulder-blades and the kidney area
- Very light in weight
- Back protector certified as per DIN 1621-2, level 2.

**COLOUR**  
Black/yellow

**SIZES**  
S–XL

NEW

## BACK PROTECTOR VEST

### UNISEX

The protector vest is a comfortable alternative to a back protector. Thanks to amply-sized coverage of the spine, the shoulder and kidney area, and the chest, it demonstrably offers particularly effective protection against injuries. Body heat helps it to achieve an optimal fit, while remaining highly breathable.

- Vest with integrated Cross back and chest protector.
- Optimum protection reduces the risk of injury
- Outer material made of polyester and Lycra (tricot)
- Innovative Cross protectors by KOMPERDELL on back and chest: flexible multi-layer and multi-chamber design, supple fit thanks to Dual-Density foam, breathable and lightweight.
- High breathability due to generous perforation
- Good impact absorption properties
- Amply sized shielding for the spinal column, the shoulder-blades and kidney area, and the chest
- Side front zip fastener to easily put it on and take it off
- Rolled neckline and armhole due to double-layered design of the vest, making it especially comfortable and flexible
- Back protector certified as per DIN EN 1621-2, level 2.
- Chest protector certified as per DIN EN 1621-3, level 1.

**COLOUR**  
Black/yellow

**SIZES**

# BAGS/ ACCESSORIES

Whatever the weather, there will always be riders out and about – which is why the right equipment is absolutely essential. No matter how rough the conditions, there's a suitable soft-luggage solution in the BMW Motorrad range. Take the luggage roll, for example. It attaches quickly and easily to every BMW motorcycle, and it's equally suitable for day trips or lengthy tours.

Functional rucksack	102

FUNCTION RUCKSACK

An innovative rucksack with a partitioned main compartment. The bag has a maximum capacity of 30 litres, a waterproof inner pouch and a whole host of storage options. But the real pièce de résistance is the carry strap stored in the back that allows you to secure the rucksack directly to your motorcycle.

- High-quality motorcycling rucksack for touring
- Capacity: expandable from approx. 30 to 35 litres
- Upper: Made of hard-wearing tarpaulin and nylon
- Waterproof main compartment with laptop section (up to 15 inches)
- Can be expanded for helmet
- Four outer pockets, inner mesh compartment
- Divisible main compartment, lower section can be accessed separately
- Ergonomically shaped back section
- Adjustable shoulder straps (padded), waist strap (removable) and chest strap
- Travel-bag-style handle

- Fixing straps for additional luggage on outside
- Can be attached to a bike as a luggage roll

COLOUR

Grey/White/Red/Black

SMALL FUNCTION RUCKSACK

The small Function rucksack is the perfect size for day trips and the daily commute. Rain showers are no problem for this bag thanks to its waterproof main compartment with an integrated laptop section (up to 15"). The back of the Function rucksack also features a pouch for the TrinkPak Hydra.

- High-quality, functional rucksack
- Waterproof main compartment with roll closure, incl. laptop sleeve (up to 15") and small inner pocket
- Four external pockets, one of which is in the lid, featuring splash protection (zip fasteners with rubber seals)
- Pouch for the TrinkPak Hydra on the back (approx. 2 litres), closable with a press stud
- Mesh lining in the cover flap
- Ergonomically shaped back section
- Adjustable shoulder, chest and waist straps
- Carry straps on the front and top
- Reflective material on the shoulder straps, cover flap and front
- BMW Motorrad logotype on front
- Upper: water-resistant, easy-care polyester blend
- Inner lining: polyamide blend
- Weight approx. 550 grams
- Dimensions (HxWxD): approx. 40x30x16 cm
- Capacity: approx. 20 litres

COLOUR

Grey/White/Red/Black

GIANT BAG

The sturdy travel bag (with a 90-litre capacity) offers more than enough room for all your gear. The two-part inner compartment features a helmet compartment, boot bag and elastic cross straps. A telescopic handle and low-friction castors make it the ideal mobile storage solution.

- Easy handling: lightweight, with low-friction castors and telescopic and carry handles
- Four compression straps
- Includes separate boot bag

COLOUR

Black/Grey/White

- Sturdy travel bag designed for motorcycle riders
- Approx. 90 litres, holds a complete set of rider equipment
- Hard-wearing outer material, reinforced back and base
- Lockable main compartment, interior divided into two
- Padded helmet compartment, foldaway partition
- Zippered outer compartment, two large compartments in lid

**LUGGAGE ROLL**

The waterproof luggage roll has a large opening, making it easy to pack whatever you might need to take with you. The small mesh outer pocket and waterproof zipped inner pockets provide space for less bulky items. Adjustable compression straps for volume adjustment. The luggage roll also comes with an adjustable and detachable shoulder strap plus a padded carry handle.

- Waterproof luggage roll
- Capacity: approx. 50 litres
- Outer: hard-wearing tarpaulin, textile-look base
- Removable, 3D-formed EVA base plate
- Large opening for easy packing
- Detachable shoulder strap, carry handle
- Includes adjustable straps with snaplock buckles for easy securing
- Reflective material on front and sides, BMW Motorrad reflective print

**COLOUR**

Dark Blue

**SMALL SOFTBAG**

Need even more room? This 30-litre softbag can be expanded by an additional 5 litres. It has a watertight main compartment made of hard-wearing, easy-care material, and is easy to attach to the luggage grid or the pillion seat using the supplied fasteners.

- Rear bag made of flexible material
- Capacity: expandable from approx. 30 to 35 litres
- Waterproof main compartment, four water-resistant outer pockets.
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle
- Easy attachment
- Retaining tabs, adjustable straps and snaplocks
- Large reflective areas on front and sides

**COLOUR**

Dark Grey

**LARGE SOFTBAG**

The large, high-quality softbag has a waterproof 50-litre main compartment. Capacity can be expanded by up to 5 litres with patch pockets. The sturdy EVA base fits all BMW Motorrad models and includes a non-slip coating. With quick fastening system.

- Rear bag made of flexible material
- Capacity: expandable from approx. 50 to 55 litres
- Waterproof main compartment, four water-resistant outer pockets.
- Tear-resistant, fabric-finish polyester
- Formed EVA on base and back
- Detachable shoulder strap, carry handle
- Easy attachment
- Retaining tabs, adjustable straps and snaplocks
- Large reflective areas on front and sides

**COLOUR**

Dark Grey

**MESSENGER BAG**

Whether heading to work or riding around the city, this practical messenger bag made of durable canvas material will be your constant companion. Offering a generous 18-litre capacity with plenty of room for a 17" laptop and accessories, the bag is well-protected from the elements thanks to a waterproof main compartment with a roll closure.

- High-quality canvas messenger bag
- Stylish look with diagonal top edge
- Large, waterproof main compartment with roll closure
- Interior: 17-inch laptop compartment and bottle holder
- Two zipped outer pockets, DIN A4 at back, front with organizer (not waterproof)
- Decorative locking belt, metal closure with embossed BMW logo, choice of four buckles
- Adjustable, two-tone shoulder strap featuring woven BMW Motorrad logotype
- Additional carry handle
- Length-adjustable, removable waist strap to secure bag when riding
- BMW Motorrad logotype on back
- Dimensions (W x H x D): approx. 47 x 35 x 11 cm
- Capacity: approx. 18 litres.

**COLOUR**

Black

**RIDE HIP BAG**

Perfect for day trips, the Ride Hip Bag offers plenty of room for your wallet, keys and more besides. A waterproof main compartment ensures rain doesn't dampen the fun.

- High-quality hip bag for day trips on and off the bike
- Waterproof main compartment with full-length two-way zip fastener
- Inner bag with a roll closure keeps the main compartment completely dry
- Small mesh bag (left) plus three small zipped outer pockets
- 3D mesh lining at the back for optimal air circulation
- Steplessly adjustable waist strap, carry handle
- Decorative reflective print (Boxer engine) on the front

- BMW Motorrad logotype on cover flap
- Functional upper material made from polyester with a fabric-look finish, water-resistant and easy-care
- Dimensions (H x W x D): approx. 18 x 20 x 11 cm
- Capacity: approx. 3 litres

**COLOUR**

Black

ORIGINAL BMW CARE PRODUCTS

BMW Care products meet the high standards set by BMW Motorrad. Developed exclusively for BMW motorcycles and rider equipment, they counteract the signs of ageing and help maintain their value and safety.

FOR RIDER EQUIPMENT

- Functional detergent: protects functional garments and keeps materials windproof, waterproof and breathable
- Waterproofing agent for fabric and leather: repels water and oil and provides a protective seal; not suitable for nubuk
- Visor and helmet cleaner: removes dirt and insect remains effectively, without damaging the equipment
- Cleaning cloth for helmet and visor: one wet and one dry cloth, ideal for use on the move to remove dirt and insect remains
- Helmet pad cleaner: removes dirt, neutralizes odours and freshens up padding
- Anti-fog spray: prevents fogging and repairs light scratches; not suitable for double-glazed visors or visors with an anti-fog coating
- Body + Bike shower gel: cleans and nourishes the skin, dermatologically tested, also suitable for motorcycle cleaning

FOR MOTORCYCLES

- Motorcycle cleaner: cleans all motorcycle components with ease, without harming the bike or the environment
- Chain cleaner: quickly and easily removes abrasive substances such as chain lubricant, sand and street dirt from the chain and sprockets.
- Chain spray: spreads evenly, holds well, and resists rain and extreme temperatures
- Wheel rim cleaner: removes impurities like brake dust and dirt picked up from the street
- Insect remover: effortlessly removes stubborn encrusted insect remains and bird droppings
- Seat cleaner: for high-gloss faux leather motorcycle seats; quickly and effectively removes dust and dirt, protects against the onset of brittleness and ensures seats remain slip-free
- Gloss polish for a deep, high-gloss shine: protects against the effects of the weather; preserves all painted, chrome and plastic parts, removes dull spots and softens micro-scratches
- Metal polish: quickly and effectively removes rust, tar, metal oxides and other dirty marks from aluminium, chrome, brass, nickel, stainless steel and other unpainted metals

TRINKPAK HYDRA

Get thirsty while speeding along the motorway? Give up the water bottle and go for this adaptable drinking system. Simply fill it with up to 2 litres of liquid, secure the lock mechanism, insert the tube via the Plug&Play connector and stow everything in your Rallye suit or a rucksack. Simply sip and ride!

- 2-litre drinking system with tube
- Pouch is quick and easy to clean: just turn it inside out
- Shape-Shift™ technology and inner zip keep the system in shape
- Flexible, hard-wearing 0.25mm thermoplastic polyurethane
- Handy, large-width slide opening for ease of access
- Contains no bisphenol A or PVC
- Dishwasher-proof
- Capacity: 2 l/70 fl oz

RIDE SUNGLASSES

Genuine head-turners: these stylish sunglasses with metal frames fit under every BMW Motorrad helmet and offer 100 % UV protection both on and off the bike. With scratch-resistant plastic lenses and close-fitting design.

- Stylish, high-performance metal-framed sunglasses
- Scratch-proof lenses, tinted in Dark Grey
- 100 % UVA, UVB and UVC protection, even in bright sunlight
- Designed to fit comfortably inside your helmet
- Close fit provides optimum slipstream protection
- Soft plastic nose pads prevent pressure discomfort
- BMW Motorrad logo on both arms
- Includes BMW-branded carry case and microfibre pouch

COLOUR  
Gun

FUNCTION SUNGLASSES

These functional sunglasses developed especially for bikers guarantee flawless views along your entire route thanks to their three, highly curved and interchangeable plastic lenses, which allow you to adapt your UV protection to the light and weather conditions.

- Stylish and lightweight performance sunglasses
- Interchangeable plastic lenses for different weather conditions:
  - Brown = high-contrast with an anti-fog coating
  - Grey = lightly reflective with a scratch-proof coating
  - Clear = anti-reflective, scratch-proof coating
- Dark-coloured glasses offer 100 % UVA, UVB and UVC protection, even in bright sunlight
- Designed to fit comfortably inside your helmet
- Curved, close-fitting design fit provides slipstream protection
- Black plastic frame with Anthracite gummed-plastic inserts
- Soft plastic nose pads prevent pressure discomfort
- Includes BMW Motorrad-branded carry case and microfibre pouch

COLOUR  
Black/Anthracite

MIX AND MATCH/HOW TO WORK OUT YOUR SIZE

Sizes of designs with all-round zips can be combined as follows:  
(Exclusively the 40 cm connecting zip can be used in other size combinations – not the all-round zip.)

Women		Men	
Suits (excl. EnduroGuard)	EnduroGuard suit	Suits (excl. EnduroGuard)	EnduroGuard suit
34	34/36/17/18/72	46	46
36/18/72	38/40/19/20/76/80	48/50/98/102	48/50/24/25/98
38/40/19/20/76/80	42/44/21/22/84/88	52/54/25/26/106/110	52/54/26/27/102/106
42/44/21/22/84/88	46/48	56/58/27/28/114/118	56/58/28/29/110/114
46/48		60/62/29/30	60/62/30/31/118
		64/66/31/32	64/66/32

Ask your BMW Motorrad dealer for details on how to combine previous and new rider equipment.

How to work out your size

It's very important that your motorcycle suit is a good fit, not least because if it's too tight or too loose, it can affect your concentration. And if you're distracted, this affects your safety on the road.

Jackets and trousers also have to sit right on the wearer. Your sleeves and trouser legs shouldn't ride up, because if they do, it's not just a safety issue – it also means you're not properly protected against the elements.

That's why the cut of all BMW Motorrad suits is specially designed for motorcycling use, and why they all feature plenty of expandable sections, opportunities for adjustment and other clever details. To make sure your suit is a perfect fit, all of its dimensions have to be exactly right. We know that riders come in many different body shapes, so our suits are available in over 40 different sizes.

To find the one that's right for you, grab your tape measure and follow these simple instructions.

A Height

Stand barefoot beside a door frame. Place a book on your head, and hold it in position. Mark the position of the book on the door frame and measure from the floor.

B Chest

Take this measurement while wearing a shirt or a lightweight pullover. Pass the tape measure under your arms and measure around the broadest part of your chest and over the shoulder blades.

C Waist

Measure around your shirt, just above the top of your trousers. Stand in a neutral position and don't hold in your stomach – that way you'll ensure the trousers sit comfortably.

D Hips

Measure around your body, above your trousers and the widest point of your hips.

E Outside leg

Measure the distance down to the outside of your leg, from the waist of your trousers to the sole of your foot.

F Inside leg

Measure the distance down the inside of your leg, from the crotch seam to the sole of your foot.

IMPORTANT:

These tables are intended as a guide. They show the body measurements on which the BMW Motorrad rider equipment collection is based.

BMW Motorrad offers two types of fit according to how each item is used by riders:

Comfort fit:  
more generous cut offering greater freedom of movement

Regular fit:  
closer, anatomical fit

SIZE CHARTS

WOMEN	International sizes	Size	Height	Chest	Hips	Waist	Inner leg
Normal	XS	32	168	76	85	62	78.2

		32	176	128	123	124	80

AirTex

A resistant, net-like Dynafil structure, AirTex allows air to flow freely, keeping you cool even at higher temperatures. It is extremely light, yet offers all the safety you'd expect from a motorcycling jacket, and is ideal for hot-weather riding, and is ideal for hot-weather riding.

Aniline leather

Leather dyed exclusively with soluble pigments that are not layered with an overcoat or pigment coating, meaning the leather stays as breathable as it was on day one, meaning the leather stays as breathable as it was on day one.

Breathability

Technically defined in terms of resistance to evaporating heat transfer (RET). The lower the RET, the more breathable the material.

Azo dyes

These may not be used in coloured outer materials since they can break down into carcinogenic amines.

Ventilation

Various materials and technologies are used to improve air circulation and regulation of body temperature. Categories:  
1 arrow: numerous systems/zips to assist ventilation  
2 arrows: specific materials used for improved ventilation  
3 arrows: outstanding ventilation

BMW Climate Membrane

A functional membrane that meets BMW standards and is breathable, waterproof and windproof.

Carbon

High-strength chemical fibre that is 30 % lighter than glass fibre and superior in terms of safety performance.

CE test mark

The CE (Communauté Européenne) mark indicates that the product complies with European Union safety directives.

ceraspace print

ceraspace technology offers unparalleled protection thanks to its unique composition – a polymer matrix containing integrated ceramic particles. This specially developed ceramic is extremely durable and resistant to high temperatures. Selective 3D printing significantly enhances abrasion-resistance without impairing flexibility or breathability.

coldblack

Treatment for dark material that reflects the sunlight and protects against UV rays, keeping suits cooler for longer.

Cordura\_500

Nylon yarn consisting of 100 % polyamide. The manufacturing process involves respinning and weaving the cut polyamide fibres. Their melting point is 210 °C.

Expanding pleats

The upper material is sewn onto the stretch fabric in a corrugated form. This allows the compound to stretch, making the tear-resistant outer material even safer.

Design

The characteristics of BMW design include the use of classic shapes and colours. Most important principle: form follows function.

DuPont Coolmax

DuPont Coolmax consists of hollow fibres which transport humidity to the outside very quickly by capillary action, making the material dry 50 % faster than cotton.

Dynafil

A highly tear-resistant polyamide yarn that's even more robust than Cordura 500/700 and resistant to high temperatures.

Dynatec

Fabric made of Dynafil. Tear-resistant and extremely robust, its melting point is 290 °C.

Glass-fibre reinforced plastic (GFRP)/ carbon-fibre reinforced plastic (CFRP)

The individual fibres (aramid, carbon, glass fibre) can be mixed in varying proportions as required. By changing the orientation and position of the fibres, different characteristics can be achieved – for example: low weight, high strength, high rigidity, low heat expansion, effective insulation and outstanding safety performance.

GORE-TEX®

A membrane made of teflon (polytetrafluorethylene). Countless microscopic pores prevent the penetration of large water droplets while allowing the much smaller water vapour molecules to pass through. The branch-like structure of the membrane means that it is also windproof.

GORE-TEX® X-TRAFIT

In this specially designed three-layer construction, the glove lining is securely bonded to the membrane, which is then bonded to the upper, guaranteeing the perfect fit and the best possible grip. This also prevents slippage, which means the gloves can be quickly and easily removed, even with sweaty hands.

Hydrophobic treatment

A treatment which renders leather water-resistant. BMW uses the vat immersion technique. During this process, only the leather fibres are coated to ensure the pores stay open and the leather remains breathable. Depending on use, dry cleaning ensures the garment maintains its waterproof performance over several years

HyperKewl system

The HyperKewl water management system absorbs and stores moisture, then gradually releases it via evaporation. This has a cooling effect that reduces heat by 6 to 12 °C compared with the ambient temperature. This means the body stays cooler and is better able to perform in challenging conditions.

Insert

A removable membrane allowing a wide variety of uses in different climates. For protection, it is embedded in a very lightweight fabric on the top and bottom, and the first layer of the jacket will get wet if it rains.

Full-face helmet

A helmet that encloses the head completely.

Open-face helmet

An open-face helmet with no chinguard or visor.

Kangaroo leather

Boasting finer skin fibres, a tighter grain and denser skin structure, kangaroo leather outperforms cowhide leather in terms of abrasion and tear resistance.

Keptec

A blend of Kevlar and PA fibres which enhances Kevlar's already excellent stretchability and abrasion resistance. Used to reinforce those areas most at risk in a fall, such as the elbows, shoulders, knees and thumbs.

Laminate

A layered structure of various materials created by thermal adhesion (the adhesive is usually applied in spots), and particularly suited for use with all-weather membranes Can also take the form of a lining laminate or three-ply laminate, and does not always need to be thermally attached to the outer material.

Leather

Because all leathers are not equal, we only use the very best. With a minimum thickness of at least 1.2 mm for our suits, and often much more, they offer exceptional abrasion resistance as a result.

Material strength

The specific combination of materials and protectors used in each product determines its abrasion resistance, tear resistance, impact resistance and burst strength Categories:  
1 star: average  
2 stars: good  
3 stars: exceptionally hard-wearing in all areas

Motorcycle-specific cut

This cut takes account of the body's contours in the riding position. The tops of the sleeves are further forwards, the sleeves and legs are angled, and there are numerous other special design details.

Nappa leather

The upper surface of the hide. Smooth and slightly shiny, worked to a soft leather with a fine grain.

Nickel-free accessories

All BMW Motorrad buttons and zips are nickel-free to protect the skin.

Nubuk leather

A highly breathable leather with a slightly roughened surface, for a smooth, firm grip.

Nyspan

A bi-stretch fabric made from comfortable elastic yarn that distorts and regains its original shape with ease.

Offroad helmet

A helmet with a chinguard and sunshield but no visor.

PCP/CP

Pentachlorophenol (PCP) is banned under the German prohibited chemicals order of 14 October 1993, though it may be used in concentrations of up to 5 mg/kg in leather processing.

3-Perform

Abrasion-resistant, three-layer elasticated laminate that is windproof, waterproof and breathable thanks to the BMW climate membrane.

Phase change material (PCM)

The micro capsules in phase change material react to temperature changes in the environment and your body by changing its state of matter at a certain temperature. If the body/ambient temperature increases, the capsules store excess heat. If the temperature drops, they emit this absorbed heat.

PORON

A foam that comes in a variety of densities and specifications. Our gloves use specially designed foams that provide a high level of impact protection and keep their shape over a long period.

ProTechWool

A unique blend of wool and polyamide. It's breathable, quick-drying and heat-conducting.

ProtectionGuard

Combines the looks, quality and technical properties of raw leather with the easy maintenance of a performance fabric.

Protectors

The protectors used by BMW Motorrad are regularly put back on the developer's table and upgraded for every conceivable motorcycling scenario. The protectors have been certified according to DIN EN 1621. All protectors are available in different sizes to ensure all riders can choose what suits them. Your BMW Motorrad dealership will be happy to help you work out your size.  
**NP2:** high-level impact absorption, excellent comfort, designed especially for touring, adventure and sports gear, certified according to DIN EN 1621 Level 2 (highest level of protection).  
**NP Pro/NP Pro back protector (long):** will replace the previous NP2 back protector in new suits from 2018. Designed with six layers for optimum fit and flexibility, it features perforations for maximum comfort even in high temperatures. Certified according to DIN EN 1621 level 2 (enhanced protection). The long version is around 7 cm longer and it is available for adventure and touring suits, as well as for the Rallye and GS Dry suits for the first time.

**NP Pro chest protector:** can be retrofitted to the Rallye suit. It can be secured with press studs in the front and is height-adjustable (two positions) Designed with several layers and perforated for enhanced ventilation. Includes a plastic splint in the centre for better impact-absorption. The trapezoid protector is available in two sizes. Your BMW Motorrad dealership will be happy to help you work out your size.  
**NPL:** lighter protection designed especially for the urban environment, offering high levels of comfort and excellent impact absorption, certified according to DIN EN 1621 Level 1.

Schoeller PCM

Derived from space research, this material features special paraffin capsules that allow it to store heat when warm and release it when the temperature drops. This means it can minimize fluctuations in body temperature, keeping the rider comfortable. The material is at its most effective between temperatures of 5 °C and 25 °C.

Seamless bonding technology

This process involves placing two pieces side by side, then covering the join with tape and pressure-bonding them with hot glue to create a flat, elastic join rather than a sewn seam.

Serafil

Highly tear-resistant safety yarn used in all BMW Motorrad motorcycle suits.

Shape-Shift™ technology

This shape-shifting technology uses a partition in the reservoir to keep the drink tube flat even when the two-litre container is full.

Safety, active and passive

Active safety measures are designed to prevent accidents, for example by using reflective material for good visibility. Passive safety features aim to minimize the effects of an accident, for instance by employing impact-resistant protectors and outer materials.

Z-Liner

Here, the membrane is like a lining “suspended” between the outer material and the lining itself.
